RE: ML 29434 Limestone

Gentlemen:

It has come to my attention that your limestone pit operations on the above numbered leasehold has not yet been brought into compliance with the Utah Mined Land Reclamation Act. Violations of this Act constitutes a breach of our lease agreement.

Please be advised that failure to bring operations being conducted under this lease into full compliance with the Utah Mined Land Reclamation Act within 30 days may subject this lease to cancellation. Your \$5,000 surety bond no. 19536-713-BCA may likewise be forfeited.

Please contact Tom Portle, Division of Oil, Gas & Mining, or myself should you have any questions in this matter.

Also, please keep in mind that operations under ML 1937 Clay may not exceed two acres in size without first having an approved mining and reclamation plan on file with the Division of Oil, Gas & Mining. I encourage you to obtain such an approved plan of operations as soon as possible in order to avoid any unnecessary delays or shutdowns.

Sincerely yours,

JOHN T. BLAKE
MINERALS RESOURCE SPECIALIST
